

Hope & Homes for Children

Coming soon...

Transforming children's lives

Home for over one million children in Central and Eastern Europe is a bleak state-run institution, where facilities rarely even meet their most basic needs. For more than a decade we have been advocating and implementing the closure of these institutions, providing children with a safe and loving family environment in which to grow up and working to prevent child abandonment.

In Africa, poverty, HIV/AIDS and the legacy of war have decimated entire communities, leaving many children growing up alone. These children face a desolate future without any adult support and guidance. Hope and Homes for Children has developed an innovative model of support that works in partnership with local communities to help prevent family breakdown and enable self-sufficiency.

This year, all the money raised from the triathlon will be spent on our programmes across Central and Eastern Europe and Africa.
